**Subject:** SDG&E water supply complaint filed  
**Attachments:** BAD vs SDG&E ECO Sub water CPUC complaint 3-10-14.pdf

Good afternoon,

Please find the attached complaint that was filed with the CPUC on March 10th by Volker Law, for Backcountry Against Dumps, seeking revocation of SDG&E's flawed ECO Substation Water Supply Plan, suspension of their Permit To Construct, and more.

We have requested pre-conference and merits hearings in Jacumba Hot Springs on April 11th and May 15th

The complaint also has bearing on Soitec Solar's plans to use water from the Jacumba Community Services District (JCSD), that we believe is in violation of JCSD's governing documents and service boundaries.

Similar concerns have been raised over contracts between Pine Valley Mutual Water Company and the new for-profit Rough Acres Water Company, Inc for Soitec's Rugged Solar project. More details will be provided in the near future.

Regards,

Donna Tisdale
